THE LEADING PROVIDER OF LIVE AND FESTIVAL SOUND PRODUCTION

Gig-In-A-Rig

The Gig In A Rig service includes: an entire mobile sound booth & recording studio, PA systems ranging from 300 to 20,000 Watts, stage lighting controller, audio and video editing systems, and a mobile fold out stage. The stage is 24 foot by 16 foot with a roof and lighting rig attached.

There are many advantages to using the Rig:

Super-Fast Setup Time - The sound booth is already wired and fully functional inside the Rig, reducing setup cost & time by 75% compared to other providers.

Less Down Time - The Rig is a fully self contained unit and the stage has a roof, ensuring your event continues beyond where other providers declare "Rain Out".

Predictable - The Rig has enabled us to establish a predictable setup process which consistently takes only 1 hour plus or minus 15 minutes.

Convenience - Not only do you just "make one call and get it all", there is a single point of contact at your event to interface with ... no tracking down multiple people for schedule changes.

Reliability - As the Rig is pre-wired it is more reliable than other solutions that are set up under a tent and wired on site.

Capture Your Event - The Rig includes audio and video recording capabilities. We can record your entire event for you to use for web postings, marketing material or to sell to fans as merchandise. These recordings can be taken back to our full service audio video production studio, mixed, mastered and turned into a professional live album or DVD.

WHAT OUR CUSTOMERS ARE SAYING:

"We hired "Gig In A Rig" for our annual customer appreciation day. Mark's experience and knowledge in live sound produced a flawless show. I wouldn't use anyone else for this type of work".

Mike Moncrief, President. Owens & Taunton Pest Control, Valley, AL

"Thank you for Xcessive Sound's help and expertise with the 39th Annual Powers Festival last Labor Day weekend. Our entertainment was a huge success thanks to you. Accordingly, Powers Festival has no hesitation in recommending Xcessive Sound as a company with which to do business".

Reta Origer, Vice President, Powers Festival, GA
A 3 day festival with 15000 visitors.

"Mark: Thanks for a great two-night show for Hootinanny 5. The sound was really perfect and the timing could not have been better. We're looking forward to Hoot 6 which I think will make the fourth show in a row you've done for us".

Dee Woodward, Re-Generation folk group, LaGrange, GA
